

ASHI WW Fall Educational Seminar

Historic Homes and New Technologies

September 12th and 13th, 2008

The ASHI WW Fall Educational Seminar on September 12 & 13 at Cedarbrook will feature two of the most highly sought-after instructors in the field of historic renovation and building inspection. Each technical topic will include an historic overview as well as insight into the latest innovations. Topics include historical homes, new construction inspections, the history of electricity from 600 BC to AFCIs, heat pumps, plumbing, building science, and green building. Peter Drenan and Douglas Hansen each have a way of making any topic interesting, entertaining and educational. At this seminar, you will also have an opportunity to purchase the new (2008) edition of Electrical Inspection of Existing Dwellings – being printed just in time for this event.

**Stay and relax at the seminar location – Cedarbrook Conference Center,
18525 36th Avenue South
SeaTac, WA.
5 minutes from SeaTac Airport, easy to access from I-5
north or south**

Peter Drenan and Douglas Hansen

Peter Drenan

Peter Drenan is a project manager, architect, inspector, and –most of all – an instructor. He is a graduate of North Carolina State University and holds numerous certifications from ICC and other organizations, and is a member of ASHI. Throughout his career, he has taken on large projects, including design and supervision of public buildings, medical facilities, sports complexes, and debris removal and disposal after hurricane Katrina. His first love is teaching, and he is a highly sought instructor on historic preservation, building codes, construction management, and forensic investigations.

Douglas Hansen

Douglas Hansen was formerly an adjunct professor of Building Inspection Technology at the College of San Mateo, and is the principle author of the Code Check series of field guides to building codes. He has authored numerous articles for trade journals, and wrote the best-selling electrical book for home inspectors, Electrical Inspection of Existing Dwellings. He has received the John Cox and Philip Monahan awards from the American Society of Home Inspectors.
